

## Your Power to Save

**866-NJSMART**

**April 2014**

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by *New Jersey's Clean Energy Program™*. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

### ONE SMALL SWITCH

*Switching from traditional lighting to ENERGY STAR® certified lighting is a smart move. With energy savings of 75% or more you can save about \$6 per bulb or about \$14 a fixture annually on your energy bill.*

By replacing your home's five most frequently used light fixtures or bulbs with models that have earned the ENERGY STAR, you can lower your electric bill. *New Jersey's Clean Energy Program* can educate you about your options and we also offer price discounts at local retailers. [Learn more.](#)

### MAKE EVERY DAY EARTH DAY

*Most people don't realize that the average household can be responsible for twice the greenhouse gas emissions as the average car.*

The good news is we can all be part of the solution, by taking simple steps at home to help the environment. *New Jersey's Clean Energy Program* offers suggestions for actions you can take that will make a positive difference, right away and every day. Help us spread the word that energy efficiency is good for your home and good for our environment! [Find out more.](#)

#### We're Here to Help

Call us at 866-NJSMART (866-657-6278) for information on these and other energy-saving programs for your home or business.

**Rebuilding after Sandy?**  
**Rebuild Smarter!**
