Your Power to Save

866-NJSMART

February 2014

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by *New Jersey's Clean Energy Program™*. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

HEATING AND COOLING EQUIPMENT

Did you know that heating and cooling accounts for more than half of the energy use in a typical New Jersey home, making it the largest energy expense for most homes?

If your heating or cooling equipment is getting older, you may want to consider replacing it **BEFORE** it breaks down. Homeowners who replace their equipment with an energy efficient alternative will enjoy lower energy bills, and rebates are available to help you get the work done. **When is it time to replace my equipment?**

ENERGY ASSISTANCE

Over 80,000 New Jersey residents have had their energy bills reduced through this program, allowing them to save energy, save money month after month, and be safer in their homes.

The Comfort Partners Program assists income-eligible households by installing energy efficient measures in homes to help lower energy bills. This **video** shares the story of one New Jersey resident from Linden, New Jersey who is grateful for the work done in her home. **Other programs** are also available to those who qualify. **Learn More.**

We're Here to Help

Call us at 866-NJSMART (866-657-6278) for information on these and other energy-saving programs for your home or business.
