Your Power to Save

February 2016

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by **New Jersey's Clean Energy Program™**. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

BRIGHTEN UP YOUR WINTER

LEDs (light emitting diodes) use 75-80% less energy than incandescent light bulbs and last 50,000 hours helping you save energy and money.

A study found that over their lifetime LEDs cost \$95 to operate compared to CFLs that cost \$159 and incandescent bulbs that cost \$652. LED bulbs are available in options that either emit a warm, soft glow or a cool, bright glow depending on your preference. Some types perform well outdoors even in cold temperatures. Dimmable options are also available.

Learn how to select **LED bulbs** when visiting your local retailer. Make LEDs part of your home!

JOIN US AT THE FLOWER AND GARDEN SHOW OR NJ SPRING HOME SHOW THIS WEEKEND

Looking for something to do this bitter cold weekend? We will have experts on hand at the following events to advise on how to make your home more comfortable, safe and energy efficient.

Visit us at the NJ Flower and Garden Show or the NJ Spring Home Show where you will find a large mix of home improvement vendors from landscapers to HVAC contractors. At both events we will have a show special of four LED light bulbs for just \$10!
