Your Power to Save

February 2017

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by **New Jersey's Clean Energy Program™**. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

CONFUSED IN THE LIGHTING AISLE?

Remember when it used to be easy to pick out a light bulb? Today there are so many options that it can be difficult to figure out the right choice.

Our experts will be on hand in the lighting aisle to help you make the right decision between the right bulb type, warm light or cool light and price point to meet your needs. Stop by the following locations from 10am to 2pm:

- February 17 Home Depot Succasunna
- February 18 Home Depot Mount Laurel
- February 24 Home Depot Vineland
- February 25 Home Depot Watchung

Significant discounts are provided by the New Jersey Board of Public Utilities and it's Clean Energy Program and are reflected in the price at

the register. [Learn more.](#)

APPLIANCE RECYCLING REBATE

Chances are that old working refrigerator or freezer in your garage or basement is running up your electric bill. That's because it can use three times as much energy as a newer one.

Whether you are purchasing a new refrigerator or freezer and want help safely disposing of the old unit, or have an extra refrigerator or freezer in your garage or basement, we can help.

Our team will pick up the appliance for free, and you get \$50! More than 95% of each appliance

is recycled and properly disposed of, preventing it from entering a landfill.

You can schedule an appointment online, and even for Saturday! [Learn more.](#)

About the New Jersey Clean Energy Program (NJCEP):

Provides financial and other incentives to the State's residential customers, businesses, local governments and schools that install high-efficiency or renewable energy technologies, thereby reducing energy usage, lowering customers' energy bills and reducing environmental impacts. In totality over the last fifteen years, New Jersey has invested more than \$3.1 billion in approximately 1.5 million energy saving projects that have reduced electric use by approximately 7% - enough energy savings compounded over 15 years to power about 3.1 million homes. The program is authorized and overseen by the New Jersey Board of Public Utilities (NJBPU), and its website is www.NJCleanEnergy.com.

Call us at **866-NJSMART** (866-657-6278) for information on these and other energy-saving programs for your home or business.
