Your Power to Save

866-NJSMART

January 2014

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by *New Jersey's Clean Energy Program™*. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

REFRIGERATOR OR FREEZER RECYCLING

By recycling 65,000 units to date, NJ residents have saved approximately 650,000 kilowatt hours of electricity, enough to power 4,550 homes for an entire year!

Now that the holidays are over, you can finally get rid of that second refrigerator or freezer. We will pick it up for FREE, responsibly recycle over 95% of it, and you get \$50. You'll also save as much as \$150 a year through lower electricity costs! Call us today or schedule your pick-up on-line! **Schedule an appointment.**

APPLIANCE REBATES

If just one household in ten bought heating and cooling equipment that earned the ENERGY STAR®️, we would prevent greenhouse gas emissions of 12 billion pounds (1.1 million cars).

New Jersey's Clean Energy Program has generous rebates to help you lower the cost of purchasing energy efficient appliances. If you are in the market for new heating and cooling equipment, a water heater, clothes washer or refrigerator; be sure to check out our great offers. **Learn More.**

We're Here to Help

Call us at 866-NJSMART (866-657-6278) for information on these and other energy-

**Rebuilding after Sandy?
