## Your Power to Save

**866-NJSMART**

**March 2014**

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by *New Jersey's Clean Energy Program™*. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

### HEATING AND COOLING EQUIPMENT

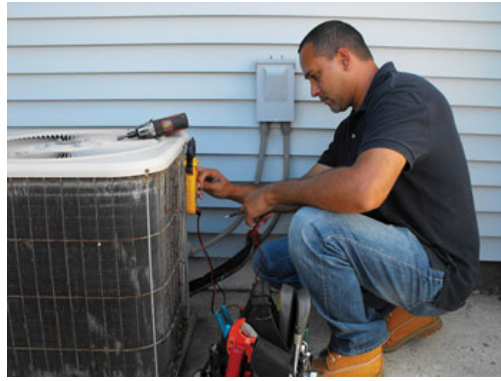

*In a brutal winter like we have experienced, high energy bills can feel like a slap in the face. Take action now to keep more money in your pocket. We'll help you get started.*

There are over 100 certified contractors that can perform an energy audit of your home to determine where it is losing energy. NJCEP offers rebates from \$2,000-\$5,000 depending on what work is done and can help you pay for it with a 0% interest loan. **[Find a Home Performance contractor.](#)**

### SPRING IS AROUND THE CORNER (We Promise)

*Spring cleaning is a tradition, but there are some other chores that should be part of your springtime routine.*

This is the perfect time of year to check your air-conditioning equipment. Annual maintenance in the springtime can help prepare your unit for optimal performance and avoid unexpected breakdowns during those first hot summer days. If you need a new system, ask your contractor to verify that it is sized correctly. An energy-efficient unit will lower your energy bills, and rebates are available to help pay for it. **[Read more Energy Saving Tips..](#)**

## **We're Here to Help**

Call us at 866-NJSMART (866-657-6278) for information on these and other energy-saving programs for your home or business.
