Your Power to Save

March 2015

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by **New Jersey's Clean Energy Program™**. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

CUT YOUR LIGHTING USE THIS SPRING

Enjoying the extra hour of daylight? By moving the clock ahead one hour, you're reducing the amount of electricity consumed which helps reduce energy bills.

We use less lighting in the early evening during daylight savings because the sun sets later, giving us more daylight and less need for lights.

Spring is right around the corner. Find out more ways to [reduce your energy bills](#).

FLIP YOUR FRIDGE

Receive rebates for recycling your old, working refrigerator and purchasing a new one. You can also participate in a national contest!

Stay tuned for next month's issue where we will feature ENERGY STAR®'s "FLIP YOUR FRIDGE" initiative, which will launch on Earth Day. A contest will be announced on *The Ellen Show* and prizes will be awarded around Memorial Day. Stay tuned to see how you, your family and friends can participate and [flip your fridge](#)!

WHAT CAN AN ENERGY STAR HOME DO FOR YOU?

ENERGY STAR Homes are built to standards that have undergone rigorous inspections, testing, and verification to meet strict requirements set by the U.S. EPA, delivering a better quality home and lower energy bills.

If you are looking to purchase a home or thinking about rebuilding one, ask your realtor or builder about New Jersey ENERGY STAR Homes. These homes are 15-50% more energy efficient than traditionally built homes. [Take a tour](#) and see what these homes offer.

Check out the latest list of [rebates and promotions](#).

We're Here to Help

Call us at 866-NJSMART (866-657-6278) for information on these and other energy-saving programs for your home or business.
