

Your Power to Save

866-NJSMART

May 2014

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by *New Jersey's Clean Energy Program™*. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

ENERGY VAMPIRES!

The average U.S. household spends \$100 per year to power devices while they are off or in standby mode. A few simple steps can slay the energy vampires!

Energy Vampires are lurking in our homes and we don't even know it! Household items are silently stealing electricity even when they are turned off. The best way to start fighting the enemy is by unplugging anything not in use and investing in power strips. [Learn more.](#)

MAKE MONEY SAVING ENERGY

Did you know the average building wastes about a third of the energy it uses? That's why good energy management is good for your business. And it adds money to your bottom line.

Energy efficiency remains the easiest - and single most cost effective - way to cut energy use. We've got the tools you need to reduce costs and increase your profits - from benchmarking to help identify opportunities to save, to substantial rebates for energy-efficient equipment. Plus, a full line of food service incentives are now available. [Learn more.](#)

We're Here to Help

Call us at 866-NJSMART (866-657-6278) for information on these and other energy-saving programs for your home or business.

Rebuilding after Sandy?
Rebuild Smarter!
