Your Power to Save

November 2015

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by **New Jersey's Clean Energy Program™**. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

SAVE BIG WHEN YOU COMBINE BLACK FRIDAY DEALS WITH ENERGY-SAVING REBATES

Retailers across New Jersey will be offering sales on major household appliances - you can add up the savings when you combine these sales with rebates offered through New Jersey's Clean Energy Program!

Need a new washer or dryer?

Don't miss the **\$75 rebate** for clothes washers and a **\$300 rebate** for the purchase of dryers.

Stocking up on food and beverages for holiday meals?

Get up to **\$75 back** for select refrigerators. Need to get rid of the old one? Recycle it! We will pick it up for free and **you get \$50!**

Using your lights more now that the days are shorter?

Look for the New Jersey Clean Energy Program logo in your retailer's lighting section as **lighting products** have been significantly discounted.

IS YOUR HOME LEAKING MONEY?

During the winter, higher energy bills can become a chilling reality. One reason energy bills get so high is that homes waste a lot of energy. An energy assessment through the Home Performance with ENERGY STAR® Program can help you prioritize energy saving projects that make sense.

You can stay warmer using far less energy. Energy-efficiency improvements, such as sealed ducts, new or tuned-up equipment and more effective insulation can slash home energy use by about a third.

An energy assessment will test your home from top to bottom - and your contractor will give you a detailed report of recommended energy efficient upgrades for your home, plus you could qualify for up to a \$4,000 rebate and a 0% interest loan!
