

Your Power to Save

866-NJSMART

September 2014

Join the thousands of New Jersey homeowners, businesses and municipalities that have taken advantage of incentives offered by *New Jersey's Clean Energy Program™*. These programs provide opportunities for you to save energy, money and help protect our climate and shoreline.

TEMPERATURES ARE FALLING - SO CAN YOUR ENERGY BILL

The first day of Fall is tomorrow, which means winter is right around the corner. Now is the time to weatherize your home before the furnace is running (and the heat is escaping) out of your home.

Did you know that in the average house the amount of heat that escapes through cracks is equivalent to having an open window year round? Inadequate insulation and air leakage are the leading causes of energy waste in homes. *New Jersey's Clean Energy Program* offers no and low cost tips to help you cut down on the chilly drafts, reduce your heating bills, and lower your overall home energy use. [Learn More.](#)

HOME HEATING EQUIPMENT REBATES

Did you know that if every gas furnace sold in the United States met the new ENERGY STAR requirements, consumer energy cost savings would grow to about \$171 million per year and annual greenhouse gas emissions would be reduced by the equivalent of those from about 177,000 cars?

There's nothing like a cozy home on a chilly night! Heating systems do more to keep us comfortable than any other home component-and also use more energy. Addressing old, inefficient equipment can increase your comfort and save you money. If you are looking to upgrade your equipment, we offer [rebates up to \\$900](#) if you are replacing your water heater at the same time.

Check out the latest list of [rebates and promotions](#).

We're Here to Help

Call us at 866-NJSMART (866-657-6278) for information on these and other energy-saving programs for your home or business.
